September, 2016

Dear Educator:

As we welcome the change of seasons and a new school year, the Greenbelt Environmental Education staff would like to invite you to our classroom – a 2,800 preserve of parkland and forest!

We cover topics ranging from the history of the Lenape tribe, which lived off the land and waters around our island in the pre-colonial era, to in-depth lab lessons on natural resources, forest and pond ecology, and sustainability. We encourage you to take a look at our updated class trip offerings, and see how coming to our classroom can support and illustrate what students are learning in yours.

If bringing students to us is a hardship or impossibility, please consider our outreach offerings, where our staff brings the Greenbelt experience to you! Lessons that are available as outreach programs are denoted here.

We wish you a successful 2016-2017 school year, full of inspired learning and unforgettable educational experience.

We look forward to seeing you soon in the Greenbelt!

Sincerely,

Maritza Cuevas
 Director of Environmental Education
