Week 1: Peek into the Past July 11, 12, 13

This week is literally millions of years in the making! Journey back in time as we search for clues about dinosaurs that once roamed the land before the Greenbelt, learn how horses helped people travel throughout history, and how dragonflies have taken to the skies for over 300 million years. We will meet at Willowbrook Park on 7/12.

Week 2: Explore the Present July 18, 19, 20

We will discover animals who call the Greenbelt home. We will search for clues about deer, look and listen for cheerful songbirds, and learn about scaly reptiles, including our resident snake, Cornelius. We will meet at Willowbrook Park on 7/19.

Week 3: Dream about the Future July 25, 26, 27

Our imaginations will run wild this week! We will examine seeds that will become the plants of the future, discover fantasy creatures (unicorns, dragons, and gnomes), and ponder the mysteries of outer space. We will meet at Willowbrook Park on 7/26.
